SUMMARY

A full-stack web developer leveraging customer service background to build a more intuitive on the web. I recently earned a certificate in full stack development from the University of Utah Coding Bootcamp, with newly developed skills in JavaScript, CSS, React.js, and responsive web design. An innovative problem solver passionate about developing apps, with a focus on mobile-first design and development. With each project, the aim is to best engage the audience for an impactful user experience. I applied aspects of UX/UI and agile development in a recent project. I'm excited to leverage my skills as part of a fast-paced, quality-driven team to build better experiences on the web.
